CLUB WOMEN PREPARED

As President of Salt Lake Authors
Club Mrs. Roberts Wanted to Go
But Changed Her Mind.

An Intimation That She Would Be
Denied a Seat Was Sufficient—
Many Women Meet.

Los Angeles, Cal., May 2.—The formal opening of the club women's convention yesterday afternoon was markedly brilliant. Hundreds of delegates and visitors packed the Simpson Auditorium to the roof, the interior was embellished with 50,000 calla lilies, and representative American women sat on the platform, while the usual happy greetings were exchanged between hostess and guests. The opening day was otherwise distinguished by two separate questions, which would have developed into sensations

MRS. REBECCA DOUGLAS LOWE

had they reached the convention. One of them, which got as far as the board of directors, had to do with turning down a delegate from a secret society. The other, which concerned the possible unseating of Mrs. Roberts of Salt Lake City, wife of the former congressman from Utah, in the event that she should try to appear as a delegate, was squelched in its native state.

The first affair, which affects a national organization of 8,000 members, came up before the board of directors at its secret session. Mrs. C. H. McMahon of Salt Lake City, it seems, had been appointed delegate from the P. E. O. chapter in that city, which had applied for admission to the general federation, and she had received her credentials. But at the last minute Mrs. Denison, as a member of the membership committee, discovered that secret societies were not admissible and so notified the delegates. Mrs. McMahon, instead of pushing her claims, withdrew amicably, on two conditions: That the membership committee shoulder the mistake, and that she be seated in the convention notwithstanding a vote was denied her.

The Roberts matter has been simmering ever since Mrs. Roberts said she as president of the Authors' club of Salt Lake City would be a delegate to the convention by virtue of her office. Mrs. Roberts changed her mind before an underlying current of protest came to the surface, and stayed at home. It is understood, however, that a prominent Eastern woman had been importuned by Utah women to lead the fight in the event Mrs. Roberts undertook to push her right. In the meantime the color question will take up much time. The rumor having started in California that Mrs. Ruffin intended to come to Los Angeles, Mrs. Anna West, one of the leaders in Massachusetts, sought a denial.

One feature that largely made impressive the opening session was the magnificent floral decoration scheme. The convention hall looked like a great flower garden. After invocation by Mrs. Chester P. Darland, addresses of welcome were given by Governor Henry T. Gage, Mayor M. P. Snyder, Mrs. Kate A. Bulkley of Oakland, president of the California federation, and Mrs. Josiah Cowles, president of the local biennial board. Mrs. Lowe responded in so gracious a manner as to call out rounds of applause.

The official reception which closed the day took place in the evening under the auspices of the Friday Morning club at the Women's clubhouse. Thousands were greeted by the national officers, the local biennial board and the presidents of the Los Angeles club. Mrs. Francis as chairman of the introduction committee served in this capacity during the evening. The program today is largely filled with reports of committees.

rate of the St. Louis exposition, sailed for Europe yesterday on the French liner La Savole. He will go to London and will probably give some exhibitions during the coronation of King Edward.

He said the airship with which he sailed around the Eiffel tower would be sent to America to arrive about June 30, and that later he expected to give exhibitions at Brighton Beach.

STILL IN COMMITTEE

Boer Resolutions in Congress Have
Got No Farther.

Washington, May 2.—The Boer question came up before the house committee on foreign affairs yesterday, when Representative Burleson of Texas asked as to the disposition of the various resolutions of sympathy referred to the committee. Representative Adams of Pennsylvania, chairman of a sub-committee having the resolutions in charge, said that next Monday had been designated for a hearing of those interested, at which time several of those prominently identified with the pro-Boer movement, will be present. The resolutions include those of sympathy and also those referring to supply camps alleged to be maintained in this country. The sub-committee consists of Representatives Adams, Cousins and Hooker.

Four Killed at Crossing.

Kewanee, Ills., May 2.—The Burlington fast mail train, east-bound, which runs through Kewanee without stopping, ran down a carriage containing four young people at the Main street crossing yesterday, and all were instantly killed. The dead are: Miss Maggie Keesler, Kewanee; Miss Blanche Harding, Kewanee; C. A. Peters, Galva; H. A. Emery, Galva. The bodies of all have been mortally mangled.

Storm Damage.

Des Moines, Ia., May 2.—A tornado struck Bayard, Ia., at 7:30 last night. Two elevators, the Chicago, Milwaukee & St. Paul depot and a number of dwelling houses were destroyed. At Van Wert a funnel-shaped cloud dropped down on the town. Then high winds blew down houses and barns and uprooted large trees. Several people were reported injured, but none killed.

Of Short Duration.

Pittsburg, May 2.—Nine organized building trades in the Pittsburg district started the conflict yesterday for higher wages. Many of the employers agreed to the demands during the day, and at its close there was every indication that the struggle will be of short duration. Of the 12,000 men who were ordered out probably not more than 6,000 are idle today.

Large Class of Cadets.

Annapolis, Md., May 2.—The last of the drills of the naval cadets incident to graduation day ceremonies was held in the Academy grounds yesterday. There is a large graduating class. President Roosevelt presented the diplomas today, and made a short address to the class. Elaborate preparations have been made for the cadets' ball this evening.

Building Interrupted.

Paterson, N. J., May 2.—All the union hod carriers in the city went on strike yesterday. Practically all work on buildings has consequently been tied up, as the carpenters are also on strike. The hod carriers are demanding an increase of five cents an hour for eight hours a day. They have been receiving 25 cents.

MAJ. GLENN'S CASE

President Roosevelt Orders
Another Philippine
Court-Martial.

SIFTING "WATER CURE"

Alleged Torture of the Presidente of
the Town of Igbarras Will Be
Officially Investigated.

The President Has Expressed a De-
termination to Sift All Such
Cases.

Washington, May 2.—Following the precedent set in the case of General Smith, the president has, himself, through Secretary Root, ordered the trial by court-martial of Major Edwin F. Glenn, Fifth infantry, one of the officers referred to as a participant in the administration of the water cure in the testimony developed before the senate Philippine committee recently.

The Glenn court will meet at Catbalogan, Samar, P. I., on May 12. It is stated at the war department that the order for the trial of Major Glenn by court-martial is in accordance with the determination of the president, announced on the 15th ultimo, as a result of the testimony taken by the senate committee on the Philippines to sift the evidence in regard to the infliction of the so-called water cure. The original plan was to try Major Glenn and the other officers involved with him in this country, but it was found more expedient to have the trial take place in the Philippines for the reason that most of the principal witnesses are now in that country. It is said that General Chaffee is practically the prosecutor in this case and should not review the proceedings.

Lieutenant L. A. Conger, 18th infantry, and Captain Palmer H. Lyon, assistant surgeon of volunteers, who were said to have been associated with Major Glenn in the torture of the presidente of the town of Igbarras, are now in this country. Their cases are being investigated by Judge Advocate General Davis with a view to determining the advisability of trying them by court-martial. It is now said that such action will depend to a considerable extent on the evidence adduced at the trial of Major Glenn. At present there is doubt as to the degree of responsibility exercised by these officers in the particular case of alleged torture under investigation.

"AGGIE" THE TOPIC

Late Filipino Dictator Subject of
Senate Discussion.

Washington, May 2.—Aguinaldo was the special subject of discussion in the senate yesterday. As soon as the Philippine government bill was taken up Mr. Carmack resumed his criticism of the Philippine commission because of its refusal to call Aguinaldo and other Filipinos as witnesses. He maintained that as the reflections by witnesses had been cast on the character of Aguinaldo he ought to be permitted "in all decency" to defend himself.

Mr. Carmack's contention was sharply combatted by Mr. Foraker (O.), Mr. McComas (Md.) and Mr. Burton (Kan.). Mr. Culberson (Tex.) in support of a statement by Mr. Carmack that the war department suppressed information and falsified the Philippine situation, presented a letter from the secretary of war which he thought was proof of the Tennessee senator's assertion. The secretary stated in the letter that it was not practicable to supply the information requested because no special account was kept of the Philippine war expenses and it would require the services of a large force of clerks to work out the information desired.

The house gave most of the day to the District of Columbia appropriation bill, which was not completed.

Cost of Government.

Washington, May 2.—The monthly comparative statement of the government receipts and expenditures shows that during the month of April, 1902, the total receipts were \$45,215,399, a decrease as compared with April, 1901, of \$2,552,000. The expenditures for the month aggregated \$40,799,263, which leaves a surplus for the month of \$4,416,136.

Pardoned By the King.

Rome, May 2.—The king has pardoned the officers of the United States cruiser Chicago, who have been imprisoned at Venice. They were immediately handed over to the United States consul, from whose charge they were transferred to the Chicago, which is ready to sail.

Improved In Health.

Princeton, N. J., May 2.—Grover Cleveland has returned to Princeton from Florida. When asked how he had enjoyed the trip he replied that he had passed the five weeks very pleasantly and that he felt very much improved in health.

Fierce Hail Storm.

Guthrie, O. T., May 2.—A terrible hail-storm has raged over western Oklahoma, and great havoc was wrought in its path. The scope of the country was Bond Creek west, covering a wide area. Stock is reported killed and wheat and fruit greatly damaged.

HE POOLED THEM

'Frisco Engineer Gave Missouri Train
Robbers a Fast Run.

Paris, Tex., May 2.—An attempt was made at 9 o'clock last night to hold up the northbound 'Frisco express No. 6 between Seligman and Washburn, Mo. Two men boarded the blind baggage at the former place, and just after the train pulled out climbed over the tender into the cab and covered the engineer and fireman with revolvers. They ordered the engineer to increase speed but to stop when they gave the signal. Two miles beyond Seligman they ordered him to stop. Seven or eight men appeared at the spot designated as the train approached. Meanwhile the engineer had pulled the throttle wide open and when ordered to stop was making more than a mile a minute down grade. It was impossible to stop within half a mile. After leaving the confederates out of sight the robbers abused the engineer for not stopping and ordered him to let them off at Washburn, a way station. The engineer obeyed and the would-be robbers escaped.

Moundsville, W. Va., May 2.—Lewis Young, colored, was hanged in the state penitentiary here at 6:42 last night. He looked for a respite till yesterday, when Governor White refused to grant it. Lewis Young was executed for the murder of Arthur Kell at Welch. Young loved a colored woman to whom another was paying attentions. He met the rival one night. A fight ensued. The rival fled. Young pursued him but he was surrounded by a crowd of friends who tried to dissuade Young from doing anything rash. Young warned them to disperse, but they remained until Young fired into the crowd, fatally wounding Kell. Young said he was madly in love and intoxicated.

Lowell Admits Murdering
His Employer.

A GREAT SENSATION

Neighborhood Aroused By the Ap-
parent Mystery of the Death of
Douglas Craft.

Arthur Meyer Now Confesses That
His Story of Suicide Was a
Fabrication.

Hammond, Ind., May 2.—Arthur Meyer, a 19-year-old Lowell lad, has confessed that he killed his employer, Douglas Craft, a farmer, on April 18. The tragedy, which created a great sensation, was heightened by Meyer's former assertions that Craft had shot at him and then committed suicide. Craft lay in the barn where he was shot for 12 hours without his wife coming near him. Owing to the fact that Craft's clothes were not powder-burned, Meyer was arrested. He acknowledges now that he shot himself in the arm to carry out the impression that his employer had tried to murder him.

SOMEWHAT MIXED

Case in Court Involving United
Brethren Publishing Company.

Huntington, Ind., May 2.—The trial of Dr. M. F. Keiter, for eight years agent of the United Brethren publishing house, located here, is in progress. Keiter being charged with forgery. It is said that in 1899 a bequest was made to the trustees of the publishing house in the form of a note for \$1,000, and that Keiter raised the note to \$3,000. The note was given by Mary A. Bond of Fairmount, on condition that it was not to be paid until after her death. It is said that after Keiter left the concern he endeavored to have the note returned to the donor to conceal his guilt. The note was canceled last November, nothing ever having been paid on it. The defense charges that there is a scheme on foot to get him into the penitentiary. Many church witnesses are present and the trial will last several days.

A Delicate Operation.

Indianapolis, May 2.—At the city hospital yesterday a section of the vertebrae was removed from the neck of Thomas Degolyer, an Anderson drayman, who for almost five months has been totally paralyzed below the hips as a result of a fall in which his neck was broken. The removal of the bit of dislocated bone was successfully accomplished, relieving the tension which had produced the paralysis, but the patient's system could not endure the shock, and Degolyer died nine hours after the operation was performed.

He Slowly Strangled.

Winchester, Ind., May 2.—Eli H. Butler, 60 years old, killed himself at his home here. His body was found by his daughter hanging to a rafter in the barn. He could have saved himself, but swung by the rope until he was strangled. He was a Mason, and 12 years ago was superintendent of the city schools. He was once in charge of the Rushville schools, and was a teacher of long experience. He had had two paralytic strokes, and is supposed to have been out of his mind when he killed himself. He left a son and a daughter.

Monthly Statement.

Washington, May 2.—The monthly statement of the public debt shows that at the close of business April 30, 1902, the debt, less cash in the treasury, amounted to \$993,115,976, which is a decrease as compared with April 1, 1902, of \$4,616,356.

I could not rise to my feet without fainting.

"I had suffered for three years or more at monthly periods," writes Miss Ella Sapp, of Jamestown, Guilford Co., N. C. "It seemed as though I would die with pains in my back and stomach. I could not rise to my feet at all without fainting; had given up all hope of ever being cured, when one of my friends insisted upon my trying Dr. Pierce's Favorite Prescription. With but little faith I tried it, and before I had taken half a bottle I felt better, had better appetite and slept better. Now I have taken two bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery,' and am happy to say I am entirely cured, and all done in two months' time when all other medicines had failed to do any good at all."

THE democratic candidate for mayor is still running on a platform known only to himself. He has heard about the colored brother's con trap, and thinks he is it.

THE republican party believes in developing and building up industries that will give employment to labor. The democratic party has always fought that principle.

REPUBLICANS should not be deceived by the democratic ringsters who want to get control of the city to further their own selfish ambitions. They would be the beneficiaries and not the people.

THE opposition organ through one of its legal editors made objection to certain expenditures of money made by the present city administration. The visits made by the committee to investigate light plants and prices elsewhere was done at the instance and suggestion of Price and was concurred by all the democrats. Every dollar of the money expended in the water works controversy was paid out on the advice of Joe Shea and through the action of his man Friday, George Huber. Now they call that extravagance which was done by themselves. They want the offices and care little for methods used to get them.

THE democrat and his lawyer editors are still endeavoring to make the water question a political issue. But thoughtful men will not be thus deceived by selfish democratic politicians. The water question is purely a business question as the REPUBLICAN has often stated and has never been treated otherwise. When it has been before the council politics has never entered into its consideration. At no time has political lines been drawn when it has been under consideration. The Democrat knows this and Joe Shea and Newt Menden know it and all of them have endorsed and commended Mayor Mills and the councilmen, democrats and republicans alike, for their manner of handling this matter. The people know this, and they know, too, that the water company case is set for trial at Indianapolis, May 10, and that it is not within the power of the republicans, or democrats either, to dismiss this suit, even if they desired to do so. The petty-fogging methods of the Democrat's lawyer editors will deceive no one. The people know that the water question is too important a matter to be considered from the standpoint of partisan politics. Reelect Mayor Mills and with him the republican candidates for council and the will of the people on this and all other questions will prevail.

ONE writer on the Democrat says fight, and another says just look what a bill you have made fighting now. We suggest that they get together and make their candidates sign a platform.

ELDRIDGE did a good work last night when he caused the ordinance to be introduced and passed repealing the ordinance that gave the Southern Indiana a right-of-way down Indianapolis Avenue.

THE question is still without an attempted answer, where and how do the democrats propose to reduce expenses. Will they refuse to give encouragement to new enterprises; will they cut the pay of firemen and laborers and teamsters? Where will they economize? Their past history is noted for incompetence and extravagance. Don't trust them again.

AN UNFAMILIAR TEXT.

But It Was a Foreboding Illustration of a Great Truth.

Several years ago there labored in one of the western villages of Minnesota a preacher who was always in the habit of selecting his texts from the Old Testament and particularly some portion of the history of Noah. No matter what the occasion was, he would always find some parallel incident from the history of this great character that would readily serve as a text or illustration.

At one time he was called upon to unite the daughter of the village mayor and a prominent attorney in the holy bonds of matrimony. Two little boys, knowing his determination to give them a portion of the sacred history touching Noah's marriage, hit upon the novel idea of pasting together two leaves in the family Bible so as to connect, without any apparent break, the marriage of Noah and the description of the ark of the covenant.

When the noted guests were all assembled and the contracting parties with attendants in their respective stations, the preacher began the ceremonies by reading the following text: "And when Noah was one hundred and forty years old he took unto himself a wife," then, turning the page, he continued, "300 cubits in length, 50 cubits in width and 30 cubits in depth and within and without besmeared with pitch." The story seemed a little strong, but he could not doubt the Bible, and, after reading it once more and reflecting a moment, he turned to the startled assemblage with these remarks, "My beloved brethren, this is the first time in the history of my life that my attention has been called to this important passage of the Scriptures, but it seems to me that it is one of the most forcible illustrations of that grand eternal truth that the nature of woman is exceedingly difficult to comprehend.—Starlight Messenger.

DOG AND PONY SHOW.

The Biggest and Best of the Kind Ever Seen Here.

Sipe's educated animal and hill-pution show came in from Washington early this morning and when they began to unload and stretch their canvas the people here were surprised at the magnitude of this show. Mr. Sipe carries over 350 people with him and almost as much canvas as the big circuses. All kinds of trained animals are to be seen,—dogs, ponies, elephants, elk, reindeers and many others. And the training that these animals show is truly wonderful.

If you saw them this afternoon you will want to see them again tonight, and if you did not see them you can not afford to miss seeing them tonight. Besides the exhibitions with trained animals there are numerous other novel and interesting features.

The parade this morning was very attractive and was witnessed by hundreds of people. Attend the performance tonight. Admission—Adults, 25 cents, children 15 cents.

Nerve Slavery

It is present-day conditions—heapings of work upon the nervous system that tell the story—premature breaking up of health.

It tells why so many men and women, who so far as age is concerned, should be in the prime of health, find themselves lacking in the strength, the power, the vitality they once possessed. It is because that great motor power of the body, nerve force, is impaired. Neither will the heart, the brain, the liver, the kidneys, the stomach act right without their proper nerve force supply. Let any organ be lacking in this essential and troubles begin—some of them are:

Throbbing, palpitating heart.
Sleepless nights.
Sudden startings.
Morning languor.
Brain fog.
Inability to work or think.
Exhaustion on exertion.
Flagging appetite.
Dizziness slow.
Food heavy.
Easily excited, nervous, irritable.
Strength fails.
Loss of flesh and muscular power.
Settled melancholia.

The above is the genuine package of Dr. A. W. Chase's Nerve Pills, are sold by dealers or Dr. A. W. Chase Medicine Company, Buffalo, N. Y.

MAY WEATHER FORECAST.

Several Storms Predicted by the Rev. Hicks.

Rev. Ira Hicks has the following in his May prophecy: "We would again call attention to the fact that the month of May brings a tier of States, running east and west through the central parallels of the northern hemisphere, directly under the focus or 'eye' of the sun, in its northward swing from the equator to its summer tropics. In the nature of things this generates an abnormal amount of electric and solar energy in our atmosphere, and usually brings on a series of very threatening and often dangerous storms. As a rule tornadoes are more frequent and severe in this month than any other, being largely owing to this special relation to the solar power of those sections of our country in which the tornado is most prevalent. But for this fact, the storm diagram for the present May indicates about the fewest causes for violent storms, leading us to believe and predict that a minimum of very destructive storms and tornadoes will be the result, that is, such storms will be about as few and as free from destructive violence as can be expected in the month of May. But while such outlook is pleasant to contemplate, no sensible follower of our forecasts, or careful observer of nature's facts can reasonably hope to see the month pass without some such visitations. Even a minimum of tornadoes calls for the exercise of prudence and common sense."

May Magazines.

The great feature of the May McClure's is the first installment of Miss Ellen M. Stone's account of her six months, captivity among Macedonian brigands. Miss Stone has risen splendidly to an opportunity that every writer of adventure—true or fictitious—may well envy her.

The real life of Tsu-Tsi, the Chinese empress, has never been told. In its June issue, "Success" will give this interesting story, written by Dr. Edward J. Dillon, foreign correspondent of the London "Telegraph."

Admiral Bob Evans is in his very best vein in his article on "Prince Henry's American Impressions," in the May McClure's. Here is his account of the origin of the article: "Evans," said the Prince one day on the train, "all this ought to make a good article for you. I hope you will write one about it."

The editorial department of the Review of Reviews for May gives an excellent summary and exposition of the various measure before Congress. There are also illuminating paragraphs on foreign politics—the French elections, affairs in the far East, and the South African situation, with discriminating comment on the career of Cecil Rhodes and the purpose and probably results of his remarkable benefaction.

There may fairly be allowed to be ground for difference of opinion as to the value of Boston's literary product in the present generation, but as to the Boston bean, the corner stone of Boston's greatness, there can be one opinion. The Boston bean is a peach. —May National.

How It's Done.

The first object in life with the American people is to "get rich;" the second how to regain good health. The first can be obtained by energy, honesty and saving; the second, (good health) by using Green's August Flower. Should you be a despondent sufferer from any of the effects of Dyspepsia, Liver Complaint, Appendicitis, Indigestion, etc., such as sick Headache, Palpitation of the Heart, Sour Stomach, Habitual Constiveness, Dizziness of the Head, Nervous Prostration, Low Spirits, etc., you need not suffer another day. Two doses of the well-known August Flower will relieve you at once. Go to W. F. Peter's Drug Co. and get a sample bottle free. Regular size, 75c. Get Green's special almanac.

WESTMINSTER ABBEY.

Something About This World Famous Old English Church.

The architecture of Westminster abbey dates back to a remote period, but long before any part of the present "glorious pile" was in existence a Saxon church stood upon the same spot. Many years before the conquest the Saxon church was connected with a monastic body of the Benedictine order, which gave the name Western monastery, or Westminster, to its place of abode, to distinguish it from St. Paul's, in London, which was known as East Minister.

Considered architecturally, the firm church here of which we have any authentic history was erected by Edward the Confessor and consecrated on Holy Innocents' day, 1065. The greater part of the abbey was built by Henry III in the style known as early English. The west front, with its grandly beautiful windows, belongs to the fifteenth century, as does also the completion of the nave and the aisles. The extreme length of Westminster abbey is 511 feet, the width across the transepts is 203 feet and the width across the aisles 79 feet the height of the roof is 103 feet.

The fortunes of the abbey have followed and are closely interwoven with those of the nation, and many, therefore, are its historical associations. There the sovereigns of England have been crowned ever since the conquest. The coronation stone, brought from Scotland by Edward I, may still be seen under the coronation chair used by Richard II. This chair has ever since been occupied by English rulers during the coronation ceremonies.

Within the walls of the abbey the funerals of many crowned heads have taken place, and sovereigns and members of royal families have graves and tombs beneath its roof. Oliver Cromwell never wore a crown, but his remains were deposited for a time in a vault beneath Henry VII's chapel with pomp never surpassed by that of royalty.

The south transept is known to the world as the "poets' corner," because there, sleeping their last sleep, are Chaucer, Spenser, Ben Jonson, Cowley, Dryden, Beaumont, Addison and Tennyson and near by are monuments to Shakespeare, Milton, Isaac Watts, Goldsmith and Johnson.

In the north transept are buried many renowned statesmen. There lie Pitt, Willerforce, Fox, Peel, Canning and Palmerston. Many eminent divines, men of letters, generals, admirals and other persons known to fame are buried beneath the marble pavement or have monuments by its pillars or on its historic walls.—Philadelphia Times

THE DOORBELL.

It tells that manner of man you are by your face.

Doorbells are pretty fair indicators of character. Probably you have not been conscious of it, but every time you pull a doorknob you register what manner of man you are. Your ring will tell everything about you, from the color of your eyes to your taste in flowers, but to those who know the signs the doorknob is as good as a typewriter. Any one who has had occasion to answer bell pulls knows how much difference there is in them. One person's method varies little from time to time, though the difference between that method and somebody else's while slight, will be sufficiently well marked. It is seldom that two rings are exactly alike.

The housewife recognizes each, the impatient man, who pulls the bell twice in quick succession and does not wait long before trying it again; the one of more phlegmatic temperament whose ring is slower and more substantial; the hesitating woman, who draws the knob out in a succession of nervous jerks; the seedy individual with matches to sell, who stretches the wire carefully to its full length and then allows it to relax with a faint, apologetic tinkle, and the jolly friend, who knows he is welcome, and therefore grasps the knob with a hearty swing that is fairly eloquent with good nature, and sets the bell to shaking its sides with such peals of echoing laughter that it positively cannot stop at once, but subsides gradually with a merry, irrepressible little titter. A doorknob has as many voices as a voice—Berlin (M.D.) Herald.

The Best Telephone City.

What is the best telephoned city in the world? San Francisco seems to be the answer. In that city, with a population of 312,782, there are 21,324 telephones, or sixty-two per thousand. In Europe, Copenhagen is probably the best telephoned city, with 15,311 telephones to its 312,850 of population, equal to forty-nine per thousand. In Copenhagen, too, the best conditions for the public exist, although the rates are relatively as high as those in American cities. London compares very unfavorably with these figures. At the beginning of this year there were 41,111 telephones to a population of more than 5,500,000, or a proportion of seven to every thousand people. New York, with a population of 2,350,000, had 54,647 instruments, or twenty-six to a thousand.

Convincing proof of the efficacy of Ely's Cream Balm, the greatest of catarrh remedies, is certainly cheap. A generous trial size costs but 10 cents. Full size 50 cents. Sold by druggists everywhere or mailed by Ely Bros., 56 Warren street, New York.
